Contents

Volume 33, Number 1, February 1995

1 *Alison D. Smith and John J. Gilbert:* Spatial and temporal variability in filament length of a toxic cyanobacterium (*Anabaena affinis*)

13 *E.S.G. Schreiber:* Long-term patterns of invertebrate stream drift in an Australian temperate stream

27 *Klaus Jürgens and Gisela Stolpe:* Seasonal dynamics of crustacean zooplankton, heterotrophic nanoflagellates and bacteria in a shallow, eutrophic lake

39 *Henri J. Dumont, S.S.S. Sarma and A. Jawahar Ali:* Laboratory studies on the population dynamics of *Anuraeopsis fissa* (Rotifera) in relation to food density

47 *Robert Schabetsberger and Christian Jersabek:* Alpine newts (*Triturus alpestris*) as top predators in a high-altitude karst lake: daily food consumption and impact on the copepod *Arctodiaptomus alpinus*

63 *O. Hadas and R. Pinkas:* Sulphate reduction in the hypolimnion and sediments of Lake Kinneret, Israel

73 *Jaroslav Vrba, Vojtěch Vyhnálek, Josef Hejzlar and Jiří Nedoma:* Comparison of phosphorus deficiency indices during a spring phytoplankton bloom in a eutrophic reservoir

Opinion

83 *Robert G. Wetzel:* Death, detritus, and energy flow in aquatic ecosystems

Applied Issues

91 *Clive Howard-Williams, Anne-Maree Schwarz and Warwick F. Vincent:* Deep-water aquatic plant communities in an oligotrophic lake: physiological responses to variable light

103 *B. Elvira:* Native and exotic freshwater fishes in Spanish river basins

109 *Robert Palmer and Jay O'Keeffe:* Distribution and abundance of blackflies (Diptera: Simuliidae) in relation to impoundments in the Buffalo River, eastern Cape, South Africa

119 *Mark Crane:* Effect of zinc on four populations and two generations of *Gammarus pulex* (L.)

127 *S. Plénet:* Freshwater amphipods as biomonitors of metal pollution in surface and interstitial aquatic systems

139 **Book Reviews; Short Notices**

Volume 33, Number 2, April 1995

141 *Timo Muotka and Risto Virtanen:* The stream as a habitat templet for bryophytes: species' distributions along gradients in disturbance and substratum heterogeneity

161 *R.I. Jones, A.S. Fulcher, J.K.U. Jayakody, J. Laybourn-Parry, A.J. Shine, M.C. Walton and J.M. Young:* The horizontal distribution of plankton in a deep, oligotrophic lake Loch Ness, Scotland

171 *William R. DeMott:* Food selection by calanoid copepods in response to between-lake variation in food abundance

181 *Pedro A. Rincón and Javier Lobón-Cerviá:* Use of an encounter model to predict size-selective predation by a stream-dwelling cyprinid

193 *Carmen Pérez-Martínez and Luis Cruz-Pizarro:* Species-specific phytoplankton responses to nutrients and zooplankton manipulations in enclosure experiments

205 *Ryszard Kornijów, Ramesh D. Gulati and Teresa Ozimek:* Food preference of freshwater invertebrates: comparing fresh and decomposed angiosperm and a filamentous alga

213 *Philip H. Warren:* Estimating morphologically determined connectance and structure for food webs of freshwater invertebrates

223 *Juan Iriberri, Begoña Ayo, Esther Santamaria, Isabel Barcina and Luis Egea:* Influence of bacterial density and water temperature on the grazing activity of two freshwater ciliates

233 *M.A. Blake and P.J.B. Hart:* The vulnerability of juvenile signal crayfish to perch and eel predation

© 1995 Blackwell Science Ltd

245 *Cindy C. Jenkins and Keller Suberkropp:* The influence of water chemistry on the enzymatic degradation of leaves in streams
255 *Per Schriver, Jens Bøgestrand, Erik Jeppesen and Martin Søndergaard:* Impact of submerged macrophytes on fish–zooplankton–phytoplankton interactions: large-scale enclosure experiments in a shallow eutrophic lake
271 *P.W.G. Daldorph and J.D. Thomas:* Factors influencing the stability of nutrient-enriched freshwater macrophyte communities: the role of sticklebacks *Pungitius pungitius* and freshwater snails
Applied Issues
291 *Björn Söderbäck:* Replacement of the native crayfish *Astacus astacus* by the introduced species *Pacifastacus leniusculus* in a Swedish lake: possible causes and mechanisms
305 *Kari-Matti Vuori:* Species- and population-specific responses of translocated hydropsychid larvae (Trichoptera, Hydropsychidae) to runoff from acid sulphate soils in the River Kyrönjoki, western Finland
319 *Penelope J. Watt and Robert S. Oldham:* The effect of ammonium nitrate on the feeding and development of larvae of the smooth newt, *Triturus vulgaris* (L.), and on the behaviour of its food source, *Daphnia*
325 *Mike Dobson, Alan G. Hildrew, Stuart Orton and S.J. Ormerod:* Increasing litter retention in moorland streams: ecological and management aspects of a field experiment
339 **Book Reviews; Short Notices**

Volume 33, Number 3, June 1995

341 *J.M. Conde-Porcuna and S.S.S. Sarma:* Prey selection by *Asplanchna girodi* (Rotifera): the importance of prey defence mechanisms
349 *Irena V. Telesh, Anja L. Ooms-Wilms and Ramesh D. Gulati:* Use of fluorescently labelled algae to measure the clearance rate of the rotifer *Keratella cochlearis*
357 *Ilia Ostrovsky:* The parabolic pattern of animal growth: determination of equation parameters and their temperature dependencies
373 *Helena Guasch, Eugènia Martí and Sergi Sabater:* Nutrient enrichment effects on biofilm metabolism in a Mediterranean stream
385 *C.E. Gibson, Y. Wu and D. Pinkerton:* Substance budgets of an upland catchment: the significance of atmospheric phosphorus inputs
393 *Yangdong Pan and Rex L. Lowe:* The effects of hydropsychid colonization on algal response to nutrient enrichment in a small Michigan stream, U.S.A.
401 *Elizabeth A. Bergey:* Local effects of a sedentary grazer on stream algae
411 *J.M. Elliott and J.A. Elliott:* The critical thermal limits for the bullhead, *Cottus gobio*, from three populations in north-west England
419 *Barry J.F. Biggs:* The contribution of flood disturbance, catchment geology and land use to the habitat template of periphyton in stream ecosystems
439 *C.M. Tate and J.S. Heiny:* The ordination of benthic invertebrate communities in the South Platte River Basin in relation to environmental factors
455 *R.G. Death:* Spatial patterns in benthic invertebrate community structure: products of habitat stability or are they habitat specific?
469 *Anne L. Robertson, Jill Lancaster and Alan G. Hildrew:* Stream hydraulics and the distribution of microcrustacea: a role for refugia?
485 *Roberto Pronzato and Renata Manconi:* Long-term dynamics of a freshwater sponge population
497 *Meryem Beklioglu and Brian Moss:* The impact of pH on interactions among phytoplankton algae, zooplankton and perch (*Perca fluviatilis*) in a shallow, fertile lake
511 *Narcís Prat and Maria Rieradevall:* Life cycle and production of Chironomidae (Diptera) from Lake Banyoles (NE Spain)
525 *E. Pattee and H. Chergui:* The application of habitat templets and traits to hyphomycete fungi in a mid-European river system

541 *Anna-Kristina Brunberg:* Microbial activity and phosphorus dynamics in eutrophic lake sediments enriched with *Microcystis* colonies

557 *Benjamin Gawne and P. Sam Lake:* Effects of microspatial complexity on a herbivore – epilithon interaction in an Australian upland stream

567 *Mutsunori Tokeshi:* Randomness and aggregation: analysis of dispersion in an epiphytic chironomid community

579 **Book Reviews; Short Notices**
